

### Solution for 3.4 Trance (Answer = PETITPRINCE)

This puzzle is an intuitive, follow-the-vague-hints, type of puzzle. First figure out that the city you're in is Lyon, France (hints include crepes, FNAC, tram and some landmarks). The airport at Lyon is named Saint-Exupery. Saint-Exupery was an author, whose most famous children's book (the bookcase was full of children's books) was 'Le Petit Prince'. The answer was petitprince which is probably not ideal but was required for the meta workings.
