

Solution for 1.4 Division (Answer = DIS)

Expand out the brackets, but ignore the additions and divisions.

This gives you a list of 1, 2 and 3 letter words - which are chemical elements.

Colour in the matching squares on a periodic table (make sure to use the right

table - Lanthanum and Actinium should go in the main bit!)

This spells out DANTE LV VI, or Dante Level 6, which is the City of Dis
