

## Hints for 2.5 Colour-Blind

- Red, green and blue, what maketh you? The colours employed throughout this puzzle are in a quite specific arrangement
- Being colour-blind won't help, but being blind just might help you identify this flag. If you flipped the colours, or left one off, or added another in, you'd get a different answer. But the answer we desire is quite specific.
- The final answer is 5 letters long and spelt with an "S".
