

### Solution for 4.4 Heads or Tails (Answer = LINCOLN)

First you need to fill in the blanks so that the word from the left and the word to the right both make sense. For example, the letter that goes between EM and NEATEN is U, making EMU and UNEATEN. Remember that this is written on a coin, so the letters loop back to the start. The two inscriptions give the words RUSH MORE. The last step is to recognise the the references to the "fourth head" in the text above. The answer is lincoln, the 4th head on Mt Rushmore.
