

Solution for 3.5 Pharmaceuticals (Answer = ADDISON)

The drugs and dosages don't match up properly. When you match them up properly with the positions of the dosages fixed, the order of the drugs are

Nifedipine 20mg po bd

Omeprazole 20mg po daily

Coloxyl & Senna 2 sachets po nocte

Oxazepam 15mg po tds

Rifampicin 600mg po daily

Telmisartan 40mg po daily

Isoniazid 300mg po daily

Simvastatin 20mg po nocte

Oxycontin 10mg po bd

Latanoprost one drop be nocte

The first letters spell out NO CORTISOL. The disease that's caused by this is called Addison's. The answer was Addison.
